

International cooperation

FSUE ROSDORNII is the member of International Road Federation (IRF) and European Bitumen Association (EUROBITUME).

Since 1992 the ROSDORNII institute has been actively working in close cooperation with the EBRD and World Bank experts on the roads and bridges rehabilitation problem in Russia.

The Institute has participated in the following projects and programs:

- “Cost-benefit analysis to select priority road segments for Federal Road Rehabilitation and Maintenance Project Realization” using the complex Highway Design and Maintenance Standards Model (HDM) program financed by IBRD – 1992-1993;
- Four pilot Federal Roads Rehabilitation and Maintenance projects in cooperation with the U.S. Federal Road Administration (1994, Sterling, Virginia, USA);
- Russian main trunk roads rehabilitation and maintenance projects: Moscow - Minsk, Moscow - St. Petersburg, Moscow - Nizhny Novgorod (including construction supervision) in consortium with “Parsons” Corporation (USA) - 1995 - 2000;
- “Moscow – Arkhangelsk” trunk road rehabilitation and maintenance project (including construction supervision) in consortium with the firm «VIATEC» (Finland) - 1995-2000;
- Pre-project propositions for Chita - Khabarovsk road section construction in cooperation with "Parsons" corporation specialists (USA) - 1997;
- “Moscow Region Road Maintenance Services Improvement” project (TACIS program) - 1997;
- “Traffic Flows Conditions Improvement on the Pan-European road network corridors” TACIS TNREG 9703 Project - 1999.

ROSDORNII activities in International organizations (as national experts):

- ESCAPO - Project for Determining necessary investments for North-East Asia priority roads, 2002 – 2003;
- OECD - International Working Group “Traffic Speed Management”, 2003-2004;
- Intergovernmental Counsel of Road Builders of CIS countries (on a regular basis)

In the period 1995-2000 a number of FSUE ROSSDORNII specialists have completed their training on “Traffic safety management for Central and East Europe” International Program at National Road and Transport Research Institute, VTI (Sweden); they have obtained Economic Development Institute of the World Bank graduation certificates (3 persons), they took part in the seminars and research and practice conferences within the framework of Russian-German cooperation organized in 2004, 2006, 2009 and 2011 by the «BAST» Institute (Germany) and MADI (The Moscow State Automobile & Road Technical University).

Since 2006 the leading institute specialists on traffic safety have been regularly participating in the International Exhibition «Intertraffic».

During the following years the cooperation with such companies as 3M Company (USA), the Trimble Company (USA), the ARRB Group Ltd company (Australia), the Holcim Company (Switzerland), etc. is successfully developing.

FSUE “ROSDORNII” has awarded such international prizes as “For high quality work” (Paris, France, 1997).
